

As **SCIENTISTS** we will be studying light and how it moves through some practical investigations and experiments. We will discuss shadows, refraction and reflection.

In **HISTORY** we will be focusing on the Tudor time period, looking specifically at Henry VIII and his 6 wives as well as looking at what life was like 550 years ago.

Continuing that topical theme, in **GEOGRAPHY** we will be looking at the change and development of London between Tudor times and modern day.

In **FRENCH** we will be learning to count and learning our alphabet through various songs, games and social interaction.

In **PE** we will be practising netball and various athletics games.

In **PSHE and RE** we will be looking at the responsibilities and rights that we have in society.

IN THE NEWS

In literacy, we will have a large focus on newspapers and writing news reports. We will regularly discuss news and current affairs, integrating it into our writing where we can. With extreme weather and climate change dominating our news feeds currently, we will be focusing on both this term.

THE ARTS

We will discuss some Tudor art in our topic as well as looking at the art work surrounding London. There will be a focus on some sketching skills with all throughout this half term as well.

COMMUNICATION

We are focusing on broadening vocabulary in Key Stage 2 this year through topical discussions, guided reading, learning new synonyms and stimulating topics.

PAPERLESS MATHS

There will be a push on learning and applying our times tables as well as adapting what we know already to understand larger multiples.

Maths will feed into our climate change and weather as we compare measurements and statistics.
