

As **GEOGRAPHERS** we will be heading around the world on the route of Michael from Kensuke’s Kingdom. This topic will see us develop our maths skills, compare and contrast countries around the world in terms of size and population as well as leading into our computer skills.....
where in **ICT** we will be creating a website to display our world studies.

As **ATHLETES** we will be preparing for summer’s big Sports Day by focusing on the different disciplines of Athletics. CUFC will also be coming in to teach Rounders ahead of an upcoming tournament.

As **READERS** we will be continuing our Cogheart adventures. **WRITING** focuses on stories in a historical setting, explanation texts and report writing using our new topic of The Heart and Circulation in Science to support our learning.

As **SCIENTISTS** we will conclude our learning on materials before diving into biology focussing on The Hear and Circulation; this will also support our **WRITING** focus for this half term as we focus on scientific writing and reports.

IN THE NEWS

The news continues to be an important area where we will discuss the ongoing issues around the world.

We’ll be tying in with the national themes of the half term and enjoying World Book Day & Red Nose Day

THE ARTS

As **Artists** we’ll be exploring the black and white world of negative art and looking at what’s *not* there!

This will see us completing some mirror images, creating some imaginative art linked to our geography studies and

COMMUNICATIO

With scientific language a focus, *technical vocabulary* will be encouraged amongst the children. Similarly, in maths children will be pushed to use their mathematical language to explain their solutions.

PAPERLESS MATHS

It’s all going to get very practical in Class 3 as we study fractions for the first fortnight- a whole host of sharing and splitting with some origami. After that we will be moving on to gathering data and surveying the class as we study statistics before finishing with some money studies.
